DESCRIPTION

Body Glove CounterFilter System

Part # WI-BG-COUNTERFILTER

BPA-FREE

The Body Glove CounterFilter System features ten-micron filtration with a quick-disconnect diverter and dedicated drinking water faucet. The Body Glove CounterFilter System is an affordable way to ensure high quality, great tasting drinking water for the home and office. With no holes to drill or special install connections, the CounterFilter System easily connects to existing kitchen faucets, affording filtered water without any installation hassle. The system is portable, which allows for convenient moving of the filter when necessary. System includes an attractive chrome housing with attached faucet, making any home or office counter installation a perfect fit.

The CounterFilter System is tested to NSF/ANSI Standard 42 for material requirements only. All materials are FDA food grade approved. Each filter delivers outstanding bad taste & odor reduction, chlorine taste & odor reduction, and superb water clarity for 3,000 gallons. The CounterTop provides 1 gallon per minute flow rates.

CounterFilter System Includes:

CounterFilter System unit with one 3,000 gallon filter, attached diverter hoses, diverter valve, plastic spanner wrench (for removing housing when changing filters), filter-change monitor and owner's manual.

Filter Capacity: 3,000 gallons (replace filter after one year or if flow becomes significantly reduced.)

BG CounterFilter Replacement Cartridge

Part # WI-BG-COUNTERFILTER-C

Body Glove CounterFilter replacement cartridge. Each replacement filter provides 3,000 gallons of filtered water for the WI-BG-COUNTERFILTER System. Replace filter after one year or earlier if flow becomes significantly reduced.

Includes:
Filter cartridge, two O-rings, filter-change monitor and replacement instructions.

Our original BG-CounterTop has been discontinued. See page 20 for a replacement filter that fits the older model.
