

COMMERCIAL QUALITY WHOLE HOME WATER FILTER AND SCALE CONTROL SYSEM

Premier water conditioner treatment for the entire home.

HousePure ScaleStop utilizes a combination of coconut shell activated carbon, KDF-55 media and ScaleStop Media. Together these mediums create superior dechlorination, bacteria inhibition and taste/odor improvement. The HousePure ScaleStop provides the most effective alternative to salt-using water softeners, reducing harmful scale buildup throughout pipes, dishes and appliances while retaining beneficial minerals in the water supply.

This scale control system does not require salt.

CUSTOMERS CONCERNED WITH CHLORAMINES CAN UPGRADE THIS PRODUCT.

Our non-chemically impregnated coconut based activated carbon has been surface modified during manufacture. *Our product is 3 times more effective than competitive products and 15 times more effective than our standard HousePure media.*

Upgrade to more complete chloramine removal! Add -CHL to the part number below

Meets National Lead Laws including NSF 372 - 2011 Drinking Water System Components - Lead Content and S.3874, Reduction of Lead in Drinking Water Act, CA AB 1953 and VT Act 193.
