**COMMERCIAL QUALITY WHOLE HOME WATER FILTER AND SCALE CONTROL SYSTEM**

Premier water conditioner treatment for the entire home. HousePure ScaleStop utilizes a combination of coconut shell activated carbon, KDF-55 media and ScaleStop Media. Together these mediums create superior dechlorination, bacteria inhibition and taste/odor improvement. The HousePure ScaleStop provides the most effective alternative to salt-using water softeners, reducing harmful scale buildup throughout pipes, dishes and appliances while retaining beneficial minerals in the water supply.

This scale control system does not require salt.

---

**CUSTOMERS CONCERNED WITH CHLORAMINES CAN UPGRADE THIS PRODUCT.**

Our non-chemically impregnated coconut based activated carbon has been surface modified during manufacture. Our product is 3 times more effective than competitive products and 15 times more effective than our standard HousePure media.

Upgrade to more complete chloramine removal! Add -CHL to the part number below
